RightStartSM
Health insurance
that's right
for right now

Every day a number of priorities pull at your wallet – your home, your car, feeding your family. It's not that health insurance isn't an important priority right now, it's that there are too many other things to pay for.

Now you can have health insurance without giving up something else to pay for it. Assurant Health introduces RightStart. It's the health insurance plan that gives you the everyday benefits you and your family value – like a visit to the doctor or help paying for a prescription. And, if you need more serious care, there's protection for that too.

Some health insurance plans offer richer coverage, but it comes at a richer price. RightStart brings you and your family health insurance for up to half off the price of other popular plans. And you have access to quality health care facilities and doctors.

It's the access you want at the price you need – right now.

RightStartSM offers both PPO and Traditional Plan options. Take a look at the highlights:

Deductible options <i>Annual amount you pay before benefits are paid</i>	\$500, \$1,000 and \$2,500 for individual. <ul style="list-style-type: none"> Family deductible is three times the individual deductible (family = 3 or more people). Individual non-network deductible is plan deductible + \$1,000.¹ Family non-network deductible is three times the individual non-network deductible.
Coinsurance options	50% or 75% <ul style="list-style-type: none"> Non-network coinsurance is network coinsurance less 20%.
Coinsurance out-of-pocket maximum <i>Total out-of-pocket equals coinsurance maximum plus deductible</i>	\$2,000 when you choose 50% coinsurance. \$3,000 when you choose 75% coinsurance. <ul style="list-style-type: none"> Individual non-network out-of-pocket maximum is \$8,000 for both coinsurance options.² Family non-network out-of-pocket maximum is \$16,000 for both coinsurance options.²
